Mauro Goldberg & Lilling LLP is the largest law firm in New York that exclusively dedicates its practice to Litigation Strategy and Appellate Advocacy in this very specialized area of law. With our staff of experienced appellate practitioners and former law clerks to appellate court judges, we know what works and our rate of success proves it. Our rate of reversals or modifications in New York's Appellate Courts is double the statewide average in those courts. In fact, since 2005, we have obtained approximately \$173 million in reductions alone in New York's Appellate Courts.

The firm enjoys Martindale-Hubbell's highest rating and is listed in its Bar Register of Preeminent Lawyers in Appellate Practice. Its attorneys also include members of the invitation only American Academy of Appellate Lawyers, New York Super Lawyers, current and former chairpersons of Appellate Practice Committees for various bar associations, and appointees to legislative advisory committees, including the New York State Law Revision Commission and New York State Advisory Committee.

As lead counsel, MGL regularly represents the insurance industry, hospitals, and other business organizations. As *amicus curiae*, the firm has prepared briefs in order to influence decisions involving issues of industry and statewide importance.

With any appellate matter, MGL provides an objective assessment of the chances for success on Appeal. If after evaluating a case, it determines that there is a minimal chance of prevailing, we recommend and the firm takes an active role in negotiating a settlement. Retention of MGL sends a clear signal to your adversary about your intention to take an Appeal, which often encourages settlement. If the Appeal has merit and the client elects to proceed, MGL prepares all necessary briefs and appears for Oral Argument.

Increasingly MGL's clients are asking that the firm join their litigation team prior to trial to evaluate both the potential for liability and the sustainable measure of damages. At the trial level, they actively and strategically participate in cases, partnering with trial counsel in an effort to secure the best possible result at trial and to protect and enhance the trial court record, thereby creating the best possible record in the event of an Appeal. MGL's visible presence also serves to change the landscape and create more opportunities for settlement. MGL is also available for all aspects of post-verdict and post-judgment litigation, including post-trial motions.

To learn more about how MGL can improve your chances of success at trial and on Appeal, you may visit [www.mglappeals.com](http://www.mglappeals.com).
